Restriction to one of the following inventions is required under 35 U.S.C. 121.

Group I : claims 1-34 drawn to compositions and methods for treating heart damage induced by cardiotoxic medicament in a mammal.

Group II: claims 35-45 drawn to a pharmaceutical package containing a dosage unit of the medicament alone and a dosage unit of the compound of formula I alone.

The several inventions above are independent and distinct, each from the other, as they have acquired a separate status in the art of treating heart damage induced by cardiotoxic medicament as a separate subject matter for inventive effect and require independent searches. It is noted that a reference to group I would not be a reference to the group II under 35 U.S.C. 103 because the group II invention is drawn to the package containing the ingredient separated. Therefore, restriction for examination purposes is proper.

Applicants are required to make a provisional election even though this requirement is traversed.
